### DEALING IN FUTURES

HOUSE COMMITTEE ON ACRICULTURE

Do Option Deals Keep Up Prices Farm Products or Send the Husbandmen Hungry to Bed? -Two Views of It.

Washington, Feb. 11. - Argument against the anti-option bill was made before the house committee on agricul-ture yesterday by Mr. Forbes, of the Duinth board of trade. He sontended that its passage would demoralize the grain trade of the whole country and it would especially demoralize in that section dependent upon water navigaion to transport products to market-The friends of the measure claimed, he said, that the fact that the price of wheat was lower yesterday than it was fifteen or twenty years ago, was attrib-utable to what was called gambling in the product. This he said, was not correct. for, lifteen or twenty years ago, Dakota and Minnesota raised but little wheat, while to-day they raised one-quarter of the entire product of the country. In the mean-time the wheat fields of Australia and India had been largely extended, and connetition had become very great. Attributable to this fact was the fail in the price of wheat. It was not attributable to speculation in the article, which, on the contrary, had a tendency

strengthen prices.

Mr. Howard, of St. Louis, a member of the merchants' exchange of that city, gave the committee some of his views on the subject of dealing in futures. There was not, he said, an extenuating circumstance in the practice. It was the most shrowd the most subtle that ever commuted from the brain of man. Every man who formerly dealt with him and had left him to deal in futures had been rained. Dealing in futures, ie said, was the greatest blight that appeared in America. The Chi-stock dealers, he said, were a great national ring of gamblers. The question arose above politics and religion. Such politics and religion as allowed the chented farmer to go to bed hungry and cold should be remedied. Supply and demand, said Mr. Howard. and nothing to do with values—it was gambling that controlled prices. He wanted every deal to be a positive one. If he sold a thousand bushels of wheat, ie wanted it to be a thousand bushels of wheat and not a thousand bushels of wind. Wheat, he said, would be worth \$1.50 a bushel if it were not for these

and Mr. Howard, "it will produce a revolution. Washington's statue will have to be pulled down and the battle f liberty fought over again. I will of live to see it, but I have faith in

alike. They only differed in magnitude. He called attention to the number of bank definitions that have come to the light within the past few years. Nine-tenths of the speculating presidents and eashiers and tellers have gone wrong through stock gambling. No president, cashier or teller ever seed stolen money to buy wheat to store in a barn alike. They only differed in magnitude.

the death of many. Had it not been for this gambling, cotton, he said, would never have gone to seven cents. In conclusion Mr. Howard said that the futures were always higher than the cash—that was the secret of this

so the fatures had some below the Mr. Laboisse said that all this season

cotton futures had been below spot agies in the New Orleans market. "Well, we will see which is correct," said M. Howard, "when I produce figures." The committee decided to figures." The committee decided to continue the heavings of the bill Saturday next, and conclude them the following Wednesday.

The secretary has informed species. Agent Wright at El Reno that a motion for the review of the Foreman decision has been filled in his office, and consider the rights of

FIFTY-SECOND CONGRESS.

(First Session.)

Washington, Feb. 10.—The vice-president laid before the senate a communication from the secretary of war, transmitting objections of liquid-marks of the army to the proposed abunge from regimental to lineal promotion, as working registre to the older licutemants. We Chandle asked immediate consideration of a ball providing for the presentation of badges to Communicate Schley and the officers and men of the Greedy relief expedition, but on objection of M. Morgan (Ala.) the bill went to the callendar.

ABSOLUTELY PURE

printing bill, was resumed.

The printing bill was passed and now goes to the house where many of its provisions have been substantially voted down during the consideration of that body of a similar measure. There was a brief executive session at which the nominations sent in to-day were referred. Mr Gorman presented the credentials of his colleagus, Mr. Gibson, substantiated by the legislature, for Mr. Gibson, substantiated by the legislature, for Mr. Gibson, substantiated by the legislature, for Mr. Gibson, which are discussed for more than three hours. Among the questions brought up was a revival of the general franking privilege for members and senators suggested by Mr. Dawes (Mrsea), but the suggestion fell through without action.

The question of increasing the number of copies of the agricultural report was again raised.

Mr. Coke moved to make the number 900,000 instead of 160,000 as named in the bill. ists at Xeres, Yesterday,

I THE PRESENCE OF A VAST THRONG

Bungling Job by the Executions Causes Men to Moan and Women to Faint, and Results in Another Outbreak.

MADRID, Feb. 11.-The four cor Xeros, in the plaza in front of the

the screw of the gurrote entered the spine their heads fell forward, the faces earth, bearing upon this subject, related to an ex-member of congress, said to be Mr. Ewart, of North Carolina, (who was shown to have hough: 600 copies of the agricultural report for five cents a copy;). Pending the discussion of this matter the senate at 5.10, went into executive session and inturning purple and their tongues protruding. A cry of horror went up from many in the crowd. The condemned men were leaders in

the attack upon and plundering of Neres on January 5 by a hand of raiders, said to be unarchists, and to belong to an organization for arousing a rebellion in Spain. There was no disorder, how ever, during the executions.

The four anarshists were executed eparately and in successive partitions It was at first proposed to execute them together, but, there being only one executioner available, it was decided to execute them separately. The platform upon which the garrote was erected was surrounded by a rough

wooden railing inside of which was : strong detachment of police and troops who had no trouble in keeping the penple back. Upon the scaffold there were four wooden partitions, in each of which was placed a chair behind which was a stake. Attached to each stake there was a metallic collar which is put around the criminal's neck; behind the llar is an iron screw which is turned until its points crushes into the spinal

The morning hour having expired all business went over until to-morrow. Mr. Readmantained that the speaker had declared bills passed when a quorum had not voted and his position was, therefore, not consistent.

The speaker retorted that the question of no quorum was not raked, and added: "With the greatest respect to the gentleman from Maine, I would say that he is acting now as he did has congress—he is nodging the question." column, causing almost instant death The old way of executing criminals in Spain was to tie a cord about their necks and then twist it with a stout piece of stick until the victim was I wonto my time to be neighbor more as one has congress—he is dodging the question."

Mr Reed replied that he thought the complaint against him was because he had not dodged any question hast year. The house them, as a committee of the whole, proceeded to the consideration of the military strangled to death. The present sys-tem is considered to be a great im-provement upon the older plan.

The streets, house-tops and window about the plaza in front of the jail were packed with people at every point of vantage, for the greatest excitemen nas prevailed among the lower classes ver since the anarchist raid on Neres January 8 last, when the town was ield practically by the "reds" for sev ral hours.

The names of the four anarchists ex cuted were Busiani, Zarzuela, Lebri ano and Lamela, the first named, having been the leader of the movement refused to leave his cell for the scaffold until compeled to do so. They presented a horribly frightened appearance as hey were forced, trembling and deadly protesting and praying, firs blustering and then imploring merey into their partitions from which the could see the populace, police and troops, but could not witness the deat gony of their companions.

Zarzuela was almost too drunk to walk when he was forced toward the stake, and kept on shouting "More wine, more wine; I am innocent; I am innocent; but we will not act cowardly, we die for the social cause."

Busiani shouted. "We are innocent it, my mother, my mother," and strug gled desperately to escape while being forced to approach the chair-like stake So terribly did he struggle, that it required the combined strength of five men to force him into the seat, and even then they had much difficulty in getting his neck into the garrote Finally, the executioner was two full minutes in turning the serew of the iron collar powerfully enough to break the neck bone of the unfortunate an

This terrible scene worked the people into a state of rage and indignation terrible to behold; men should and earsed at the anthorities, women went and moared as they buried their bear cash, but the average, he said, was in favor of the futures.

Our of the grams which indicate that the people, male and female, fainted outlier that the people are the first that the people are the female and female fainted outlier that the people are the female and female fainted outlier that the people are the female and female fainted outlier that the people are the female fainted outlier than the female fainted outlier that the people fainted outlier than the female fainted outli to attack the police or military, for the latter have taught the anarchists a lesson which they are not likely to forget

for many a long day. The other two condemned anarchists Lobrijano and Lamela, died more qui-etly, death, apparently, being instantaneous, from the moment of the first two or three turns of the screw. All the executed men were either cobblers or bootmakers. Out of sympathy for them, the people in many of the outly-ing towns and villages closed their little stores or else refused to go to work.

There is no truth in the story that the explosion of the bomb in the plaza Real, at Barcelona, Tuesday night, was due to the action of the people in sym patby with the men executed yesterday, and who tried to create a disturbance The explosion is said to have been due entirely to the local disturbances which the police and military are fully pre-

pared to cope with.

Many people believe, however, that
the authorities should have paid more attention to the attempts made by the Bishop of Cadire, and others to obtain a commutation of the prisoners' sentences and hope is expressed that the remainder of the men in custody for participation in the riots at Xeres will sentenced to imprisonment. It is

ramored, however, that at least three nore of the rioters will be sentenced to lie by the garrote.
There were disturbances again Barcelona last evening on account of the excitement caused by the anarchist executions at Keres. The police at-

tacked the mob which was parading the streets in a disorderly man-ner. The populace refused to disperse, and the police were com-peled to use their revolvers, but without killing any one, so than a man. Officer Williamson tried but without billing any one, so in vain to rescue Carring. An inquest far as is known. Several alleged an archists were arrested. One of the an-archists executed made a confession, or is claimed by the authorities to have made one, in which he said he had been misled to his destruction by the revo

buttonary press, and he advised his as-sociates to repudiate its unjust and de-Prof. Neil,

WAR DECLARED

By the City of Omaha, Neb., Against th Union Pacific Railroad Co. OMAHA, Neb., Feb. 10.—The mayor and city council have openly declared war on the Union Pacific, as will be seen by the following communication ent to the council by Mayor Bemis: I respectfully call your attention to the action the Union Pacific Bailway Co. with refer

of the Union Pacific Bailway Co, with reference to the jobbers, shippers and wholesale dealers of Omalia in requiring the payment of excessive charges for switches; also, the determined purpose of such rallway company to violate its contract for the construction of a new depot building in the city of Omalia and in every way possible to injure the city and its business interests.

every way possible to injure the city and its business interests.

I believe in dealing fairl 7 if not liberally with the railreads as well as every olice corporation, but I think that the city has some rights which the railreads, as well as other corporations should respect It is absolutely certain that if the city had indicated the strongest spirit of heatility toward the Union Paelfic Railread Co., it could not have acted more unfairly with the city than it has done in the past. By ignoring its contract with the city, by exading just taxation and working sgainst the business interests of the city, it has seriously interfered with the growth, and development of the city. It has refused to accept the offer branch which then and time again has been extended in the past.

I believe that the time has now arrived when the city should assert for rights and to the utmost limits of its powers, uring the corporation to time.

to frime.

I suggest and recommed that the rights and privileges granted to this company by the numerous ordinances be revoked by a repeal of said ordinances. I further recommend that such legal steps be taken at the earliest time possible as may be necessary to enforce and protect the rights of the city.

The council unquired by adorted the second or the city. The council unanimosly adopted res-

lutions containing his recommendations and instructed the city attorney to begin suit to recover a lot of valuable property deeded to the company, but which should revert to the city owing to breach of contracts.

press Robbers Taken at Last. SAN FRANCISCO, Feb. 11.-Marion Hedgepeth, one of the men who robbed an express train at Glendale. Mo., of nearly a hundred thousand dollars, was

fice about 12:30 clock and inquired for a letter. A detective and two assist-ants, who bad been on watch at the post office for the fugitive express robber, attempted to place him under arrest when he reached around to his hip pocket. The three men, however, overpowered him before he could draw

Lottery Test Cases.

Deanwoon, S. D., Feb 11.-The United States grand jury now at work has brought in indictments against eight Chinamen recently arrested for using the mails for the transmission of lottery matter. These cases will be tried at once. If they are convicted of test case, numerous arrests will follow.

Make Trouble.

#### LIVELY ENGAGEMENT IN PROGRESS

Between the Indians and Cowboys, with the Result as Yet Unknown--The Trouble Caused by Indian

DENVIR Col., Feb. 11.—A special to the Republican from Albuquerque, M. Dennis, the saw-mil owner at Coolidge, who is here, has re-ceived a dispatch from his manager, A. E. Batchelder, that Navajo Indians were congregating in squads of from twenty-five to fifty at the small towns on the Atlantic & Pacific, between Lu gune and Coolidge, with the intention of cleaning out the cowboys on the cattle ranges along the road.

At Chaves station, seventy-five In-dians are holding a powwow, have on their war paint and are heavily armed The women have their trunks packed ready to leave, while the cowboys are rustling all the arms they can get and propose to stand their ground.

Mrs. C. Jenkins, wife of the manage of the eating house at Coolidge, with her two children, are the first to read this city, and the tells your correspond-ent that the Indians and cowboy are massing forces for an engagement, and that the whole white mail population of Coolidge and vicinity were up in

arms and ready for the conflict.

A number of cowboys from several ranges assembled at Coolidge and defied the Indians then in the town to commence carrying their threats into execution. The Indians left on horsos and went in the direction of Godding-ton's ranch An hour later a runner captured in the post office in this city yesterday afternoon.

iledgepeth appeared at the post ofires at the ranch between the gress at the ranch between Indians and cowboys there and that if the latter were not reinforced the Indians would annihilate them. Those in Coolidge then left to join their associates, but the actual result of the fight has not been yet received.

A rumor is in circulation here that the fight at Goddington's is still going n weapon and handenfling him took him to prison. Two revolvers were found upon him, one in each hip pocket. The indians were noticed carthese. The indians were noticed car rying their dead off.

During the present winter the cattle-

men whose ranges border the Navajo reservation have lost a number of cat-tle stolen and killed, and the cowboys have traced the depredations to the Navajo Indians The owners of the stock have called on the chiefs for some kind of a settlement, but their demands were met with refusals. Both sides since then have been bantering each other for a fight, and the cowboys finally destroyed one of the Indian houses. The Indians retaliated by burning the outhouses on a ranch a few miles from Coolidge, and the present affair is the outcome of the had feeling which has existed all win-

#### AN OLD-FASHIONED IDEA.

It used to be thought that the only way to sive money was to silt it down" in an old pewter pot or some thing, a little at a time, as it sould be spared No one ever thought of get ting interest on he savings or of making the money in the pot earn anything It is not so new Puople have grown into better ideas. So small a sum re 40 cents per month may be saved and profitably invested in the Louisble Building and Louis Somety of Peoria. Sams as high as \$120 per month may also be sayed and invested - Every dollar earns the same as every other dollar. No pre forn'd stockho'ders. Women and children may carry stock. It will teach boys and girls the vilue of a dollar, properly handled

The First of a Series of Six Sunday Even-ing Sormons on the Subject Modern Beconstructions of Ancient Beligious

Our general subject is thereby in nounced by Medicin Recensitivetion of Ancient Religious Notions - but the special type for to night is (aid

You will find my text in the first chapter of the Lyistle to the Helzins at the first view

God having of oid time spoken unto the 12th is in the proph ts by divers pertions and in divers mainers. I als in ender these days speken unto us in a tisen whom he half appended here of all things on account of whom also he made the ages.

I have read the text of the Revised Version and have salistiffed the margin il ir idings for those of the text the old reading is find who it sundry times and in divers mainers spak in time post unto the fithers by the prophots both in these list days spoken unto us by his Son, whom he hith appointed herr of all things by whom also he made the worlds

It is unnecessity for me to say to night that we approach the fundamen tal principle of all religion and it is fitting and proper that we should up proach it with the profoundest rever ence. It is not so much my object to set before you in idea if God as to cill your attention to what men have thought and still think on this subject It is more important that we should un detstand the history of human thought on any subject, then it is simply to know what we ourselves think what all men have thought will lead us much in iter the truth than what we with our own little narrow thinking conever come to

In discussing the subject I want you to consider the Nature of God the Char actor of God and the Administration of God I am not going to spend any time at

all to mght trying to ger you to I cheve the takers is a God that is not neers sarv The common consent of human i ty through all the iges and mevery type of civilization has snaply set le fore us this truth that there is a deeply inwrought conviction in the homen mind externing the existence of a Supreme Being What we want to find out to night is how men have left then way us and out toward the thought that we possess in this nineteenth century Man began his religious history with Nature before him and he himself a child of Naturo and as he leoked out upon this world of ours, with all its to arty with all its variety with ill its stringe activity with its ben fit if is pect, and with its host he and sometimes cruck espect, when he look dat the sun and moon and the stars when holick ed of the storm and the tarpest when he looked at the changing of the sea sons and the product of the soil and the work of whit seem I to be the evil genius) i Nature manifelt that God was a very varied sort of being and is he locked at these mand stations of Na he began to nyest them with something super natural and oct or this gress gradually the notion that there were many gody, that there was a dicourty presiding over all the variomanifestations of Nature, that each peentre phenomenon or nature lad its presiding beauty and in Nature man

Senatimes that God was smiling and times the sterner ispected of his natur fortule the approach of use and he sought for one meleuter and sought for some method by which he might propitiste the divinity, and thas their grew up in the world that vist system of polytheism, men worshipping, gods on it shot has carin

Ly by locality came to have its divini ty every little tribe had us own di aimity almost every tendly had its divirity and gods were without man ter but is the human mind begin to levelop with the 3 timesple of unity which it had been construited to curry deng with it in the investigation of that which was external to itself in in be g in to bring together his south real ide is To sought for some better muthod it representing what appeared to him to be I'm Iruth criegind to God He turned away from fature turn d his attention inward, and when he begin to look it himself and study his wand it and the atten of his own powers has found that he had an him a thinking tower that he had it han elector grewer and that he list is him t will power smutinies to we thind my sometime 1 was leving and hatting sometimes howes executing aid man thus analyzing as best he could be continue to at has fire traity and that traity to naturally instructively inevitably transferred to his onception I took hence the old Igit ushed timity () gets the old Hands shall the naty of gods, and this treaty had us genesis its origin in the prenhar dructure and make up of the psychic nature of man in which he tound binisell thinking feeling and

Thus the old notion of the divinity crine down to more recent times and took its place among the doctrines of the Christian church, and for long centurns ifter the wisest and best of nich et the Christian church made the idea of the frinity everything and the notion of unity sub-ridinate to it. They seemed to lave in impression that the unity of the divine rature was a sort of organization into which three persons had entited to the currying out and the attiniment of a certain object

You can hardly study theology with out feeling that lying it up hasis. There is this strange conception that three intellects and three wills entered into a combination for the accomplishment of certain ends in connection with human to which I have just ref history and yet what a stronge concention this is for men to entertum of the Deriv in this mineteenth century As man lagin to investigate nature

again turning away from the study of his own mind and turning his titlention with more scientific exactness to the in vestigation of nature, he hegan to real in that nature was a unity and that underlying the vast and varied the nomens of the world and of the uni verse so fee as man could reach out to it and through it underlying ill this infi nite viriety there was the principle of unity the unity of law and unity of nature and unity of force and with this principle in his possission man muched on the high rold toward the conception of the unity of God so that instead of the thoughtful man of this mi cheath century conceiving that the unity of God results from in agreement between three distinct persons this trinity that we talk about is the out reaching of one supreme intellect and one ounapotent will and one great los ing heart in three distinct lines that correspond first to the structure of man's psychic nature and second to his wants. In other words instead of the unity being subordin ite to the trini ty the trinity is subordinate to the unity institut of unity being in organi zition of three the three is simply a threefold outgoing of the one. So much for the development of truth clong this line of religious truth but how hard it has been for the Christian church through the long centuries that have passed since christianty was first or granzed how difficult it has been to grasp and hold this truth. I will ven thre that there are here to night more than a score of persons who when they prix priv to three instead of one that they have distinctly in their minds three intellects that listen to their wints three wills upon which they ire in sem way dependent three great loving hearts from which a some way they want to derive sympathy the old

notice still chags to us Agun is human truth idvinced when man in his investigation of nature legin to realize that with all that he must be propileded an could do with all the hiscoveries be was alle to make he sounce, there was still in unseen subtle universal force that he emild neither energies or define in unknown quantity that give unity in l stability to scientific knowledge Call at the principle of force or call it Liw excell it what you will but is men have advanced in these later years of trull and of Christian listory along this In they have gradually come to leed that that One that supreme One is a spirit intangible un indyzible um

It is true that all this is thight in this wenderful oldbook but how many cen turnes it has taken us tograsp the truth and how town of new year one entorthe most sicred mements of your life with your mest selemn thoughts, and wor ship if the alta of the inseen Good gerry and attentive and I ving and with the feeling that he is a Sport that sometimes he was cross and cruel and He is with you. If it He is an you with the feeling that he is a Sport that repulsive sometimes he could be up that you have author to send to herven to bring Him down seemd into the depths to bring Hun up. but that the word is night on even b come hout

So much the elect the nature of God Now I went you to look at the evoluit not bun in thought in regard to th divine character and here we may out line it is having three district phases God hum in zid

POWERS'

Discount Sale,

20 PER CENT. OFF ON ALL SHOES,

Ends February 29.

1 -The Integrity of this Sale is Beyond Question.

## WHAT ARE THE PROFITS?

One Price Clothiers.

What do you suppose are the ordinary profits in the shoe business? Determine this question in your own mind and you will then have told yourself already of the smallest amount which you can make, (because you can save it) by trading with Ferriss & Lapham right now. It is a solemn fact, which the business record of every day proves, that we are selling at the wholesale net cost price as our highest figureselling at the wholesale net cost price as our highest figure.

Note that the selling at the wholesale net cost price as our highest figure.

It is impossible for us to make any profit on the goods. We frankly admit that, but it is possible for us to get the cash in place of the shoes, and it is the cash which we need nowadays. That is the great reason why it will pay you to buy at Ferries & Lapham's right now. Don't let the other shoe dealers misrepresent this Sacrifice Sale. It means business, it is straight and just as we represent it. We know that we INDIANAPOLIS, DECATOR & have made Decatur the lowest price shoe town in the country of STERRY try and this occasion is something more than an era of low

Walt Wistman in New York Notwithstanding his residence in Washington his stay in New Orleans, where he did some good newspape, work and not counting his long vegeta-tion in Cunden N J, Walt Whitman is in every fiber a thorough New Yorker Why not? He was born, seventy-two years ugo in a little villuge over on Long Island, and, like most Long Island-

city was comparatively small then, and Walt Whitman was as conspicuous a citizen as any-knew everybody and every body knew him. He was a marked figure on Broadway -a most maply man as vigorous and virile as his own poetry.
His very personality impressed itself upon all passers by and men and even women turned around to look at him He was almost the first to make the now tashionable fad of the flannel shirt in ummer his all the year round convent ince and a milest and the broad coll in a is turned over a silk American flag His ordinary wear was a neat suit of one of the people Brady then fione of the people Brady then fi-nous as a photographer, was the first to capture Whitm in and thereafter every photographer in town displayed colored

pictures of Walt especially to show his American flig scarf
There were omnibuses in those days - stages they called them-and every driver knew Walt Whitman, and up and down Broadway the poet was prominent, often for hours, beside a driver on the box. The lively street was his studio m which he made his pictures of the people and his studies of humanity -New York Cor Brooklyn Times

The Development of Slam. The S succe sovereigns have usually been men of considerable ability and in energy and enlightenment are superior only thing lacking is the haunted house. If this cannot be found it is proposed to ling of San and his successor have use the dead house owned by the town | done what they could to infroduce the Among the rules are almost everything forms of western civilization Bangkok, the capital has the electric light train cars and government offices of European architecture and the present king has also shown himself a reformer of abuses especially of the weist of hamese second evils the universality of serfdom and

the previlence of slavery
Further and much needed reforms are expected from him, but even were the political and fiscal idministration of the angdom very much better than it is the
